Learn Today, Lead Tomorrow

Brand Identity

- Brand identity is the visual and strategic foundation of a brand. For H&B Computer Education, the identity was developed to communicate professionalism, trust, technology, education, and career growth. The identity provides a consistent visual direction that can be applied across both digital and physical marketing materials.
- The brand identity system includes the logo, colour palette, typography, graphic elements, imagery style, layouts, and overall visual language. Establishing these elements at the beginning helped maintain consistency throughout the 500+ designs created for H&B.

Colour Palette

- A consistent colour palette was finalized to create strong brand recognition across all marketing materials. The primary combination uses Navy Blue, Green/Teal, and White.
- Navy Blue: Represents trust, professionalism, stability, and authority. It acts as the primary brand colour and provides a strong visual foundation.
- Green / Teal: Represents growth, technology, learning, and freshness. It is mainly used as an accent colour to highlight important information and create visual energy.
- White: Represents clarity, simplicity, cleanliness, and openness. It provides visual breathing space and improves readability.
- Colour System
 - Primary: Navy Blue
 - Secondary: Green / Teal
 - Base: White
- The three-colour system was consistently applied across print materials, social media creatives, banners, hoardings, office branding, stationery, and promotional designs.

Learn Today, Lead Tomorrow

Logo Designing

- The logo is the primary visual identifier of H&B Computer Education and forms the foundation of the complete branding system. The logo was designed to be simple, recognizable, professional, and adaptable across different sizes and mediums.
- Key Objectives
 - Create a memorable brand symbol
 - Maintain a professional education-focused appearance
 - Ensure readability at different sizes
 - Make the logo suitable for both print and digital applications
 - Establish a consistent identity across all H&B branches

H&B COMPUTER EDUCATION

Learn Today, Lead Tomorrow

Visiting Card/Business Card

- A professional corporate identity piece used for networking and brand recognition.

Letterhead

- Official communication materials designed to maintain the same identity in business documents.

H&B COMPUTER EDUCATION

Learn Today, Lead Tomorrow

Pamphlet / Flyer Design

- Compact promotional material for courses, offers, events and student enquiries.

Banner & Hoarding Design

- Large-format advertising designed for maximum visibility and quick communication.

H&B COMPUTER EDUCATION

Learn Today, Lead Tomorrow

Employee ID Card

- A staff identity asset that combines professional information with the H&B visual system.

Branch & Office Branding

- The identity was carried into physical spaces so the brand experience remains consistent offline.

H&B COMPUTER EDUCATION

Learn Today, Lead Tomorrow

Social Media Branding

- Digital creatives extend the same identity into Instagram and other social communication
